THE ULTIMATE FLOATING MAT SOLUTION FOR CRACKS

Grizzly Court is a revolutionary free-floating mat system designed to restore and enhance tennis, pickleball, basketball, and multi-sport courts.

Engineered with patented technology, Grizzly Court provides unmatched durability and resilience while preserving optimal ball bounce and playability.

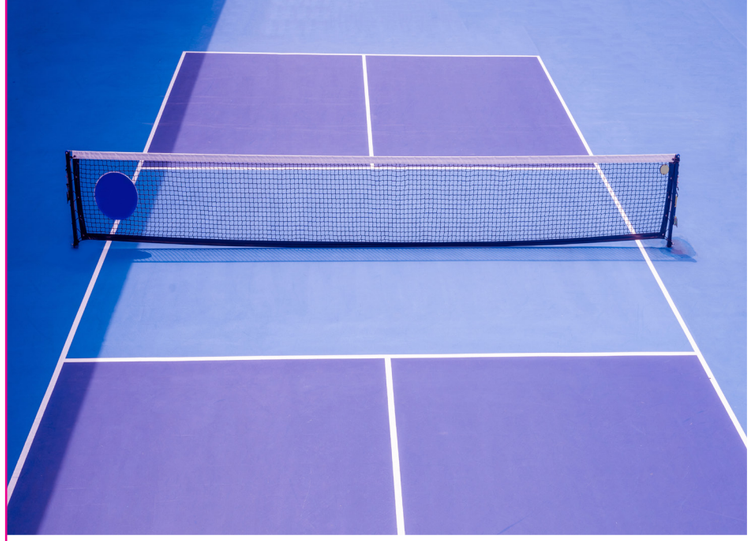

Transform your sport surfaces with the newest innovative, high-performance solution for cracked surfaces that delivers superior resilience without compromising play.

HOW IT WORKS

Grizzly Court is a multi-layer system that provides unmatched durability while preserving optimal ball bounce and playability.

*2 Applications

GRIZZLY COURT

Permanent Crack Repair

- Designed as a permanent crack repair solution, Grizzly Court is thermally stable and not susceptible to vapor transmission.

Easy Installation

- Grizzly Court doesn't require any special equipment for installation making it an easy choice for contractors and players.

Comfortable, Cushioned Play

- Grizzly Court contours to substrate eliminating dead spots and has a unique cast in place cushion application that helps with force reduction to allow for longer comfortable play.

Versatile Court Solution

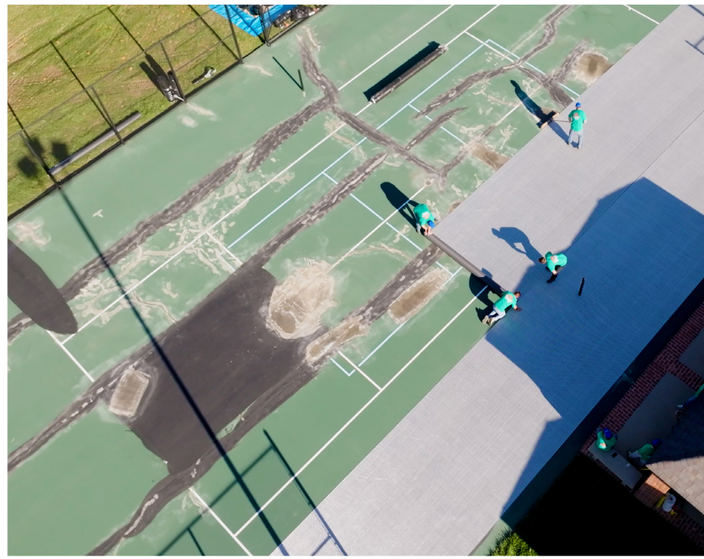

- Grizzly Court can be installed at any temperature suitable for coatings and is a great solution for roof top and concrete deck applications for both outdoor and interior courts.

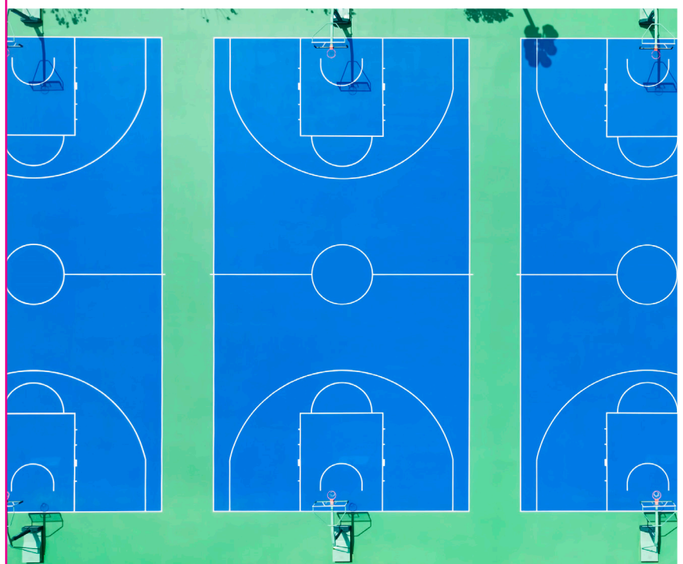

Long-Lasting Protection

- Not susceptible to vapor transmission, ensuring a durable, low-maintenance, and long-lasting playing surface.

No Dead Spots

- Conforms seamlessly to existing surfaces, ensuring uniform play without unpredictable ball behavior.

BENEFITS OF GRIZZLY

- **Engineered with Patented Technology**

  Grizzly Court is a multi-layer free-floating mat system that provides unmatched durability and resilience while preserving optimal ball bounce and playability.

- **Cracked Court Solution & Performance Boost**

  Effective solution for covering cracked court surfaces creating a consistent and durable playing experience.

- **All-Weather & Thermally Stable Installation**

  Unlike competitors, Grizzly Court can be installed at any temperature suitable for coatings, eliminating delays due to weather constraints.
