

PICKLEPLAY - Tournament Grade

Premium Acrylic Pickleball Surface

PicklePlay is a tournament grade acrylic Pickleball surface. PicklePlay is a sand infused acrylic color concentrate designed for a nonskid, safe player experience. Available in 9 standard colors and custom colors upon request, our Pickle Play allows you to unleash your creativity when designing your court layout.

Engineered with premium acrylic polymers and reinforcing pigments, Pickle Play is designed to be long lasting, durable and even textured providing a non-glare surface with 50% greater wear.

PICKLEPLAY PRO SERIES - Looking for longer play with less fatigue and pain? Our PicklePlay Pro Series is the answer! A combination of 9 layers of acrylic coatings, including 7 layers of DynaCushion increases comfort while maintaining speed of play, resulting in extended enjoyment on the court.

DURABLE

- ▶ Guards asphalt and concrete as it beautifies. Protects against surface water related damage.

LONG LASTING

- ▶ Premium 100% acrylic polymer fortified with reinforcing pigments provide up to 50% greater wear.

EASY-TO-USE

- ▶ Engineered for improved ease of use. Just add water, mix and apply.

PERFORMANCE ENGINEERED

- ▶ Contains proper aggregate for playability and nonskid performance.

UNIFORM & NONFADING COLOR

- ▶ Consistent quality control color matching at the factory assures uniform color, even on large projects. Pure inorganic pigments assure no fade or color change for years of service.
