Performance

### About Neyra Dynaflex

Dynaflex Sports Surfacing is the premier product line of athletic surfacing solutions from Neyra Industries. Since 1980, Neyra has manufactured a full assortment of sports surfacing products for tennis and pickleball courts, running tracks, playgrounds, basketball courts and other recreational surfaces under the Dynaflex Sports Surfacing brand. Whether building a new court or restoring one, Dynaflex Sports Surfacing offers a complete surfacing system for all projects.

Built on a Tradition  
of Excellence

## Why Choose Us?

Neyra is dedicated to manufacturing the highest quality, all-weather athletic surfacing solutions for both indoor and outdoor application. With customer service a top priority, our team of highly experienced professionals provide personal attention and on-site technical support to contractors, club owners, tennis professionals, school officials, engineers and architects. Our growth is a direct reflection of the enduring relationships we have with our customers. As a result, every Neyra employee has a "customer first" attitude and strives for complete customer satisfaction.

With over 40 years of experience and innovation, Neyra is the most trusted name in the pavement maintenance and sports surfacing industry. A family-owned company constructed on a foundation of quality and integrity, Neyra is more than just a manufacturer of superior paving products and athletic surfacing solutions – we are your business partner.

**Long Lasting**  
**Easy to Use**  
**Durable**

**Creative**  
**Custom**  
**Colors**

**50%**  
**Greater Wear**

### Long Lasting

Dynaflex provides customers with a premium 100% acrylic polymer fortified sports surface with reinforcing pigments that provide up to 50% greater wear.

### Ease of Application

Dynaflex is formulated for increased ease of use. Just add sand, water, mix and apply. Dynaflex also has excellent sand suspension during application and provides a uniform appearance and playing surface.

### Engineered for Custom Play

The high solids formulation of Dynaflex allows the mix design to be customized to the speed of play and foot traction desired.

### Even-Textured, Non-Glare

Dynaflex will maintain its beautiful appearance through years of active play. A sun blocker protects the rich, true colors of Dynaflex from the fading and bleaching caused by the sun.

## Unleash Your Creativity

Dynaflex offers a palette of various standard traditional colors as well as creative custom options.

## LEED Compliant

Dynaflex can be formulated in custom colors to meet LEED green building requirements.

## A Complete Sports Surfacing System

Whether building a new court or restoring one, Dynaflex offers a full line of products.

### Dynaflex Acrylic Color Coating

Coats of Dynaflex depends on your desired speed of play.

### DynaStripe Line Paint

Fast-drying, UV resistant acrylic latex striping paint

### Existing Asphalt Pavement

**Dynaflex Cushion Base and Top**  
Provides a premium, flexible acrylic cushion coating.

**Dynaflex Resurfacer**  
Creates a smooth court surface. Number of coats depends on porosity.

**Dynabinder Quick Patch Binder**  
Patches minor depressions on court surfaces.

Crushed Stone / Suitable Base

Dynaflex is a premium acrylic coating with unmatched protection and durability for tennis courts, basketball courts, tracks, playgrounds and other recreational surfaces.
